Beneficial Electrification League Electric Water Heater Summit:

Electric Water Heating and Weatherization/Electrification Together

May 4, 2023, 1:00 - 3:00PM ET

Join the Beneficial Electrification League (BEL) and key electric water heating stakeholders for a virtual summit on the state of the electric water heating industry including updates on heat pump water heater and grid-interactive water heater installation projects. This summit is a part of BEL's Weatherization/ Electrification Together Initiative.

The summit will discuss new electric water heater research from GDS Associates and The Brattle Group commissioned by BEL. During the summit we will hear from water heater technology vendors and electric cooperatives. Register at: https://be-league.org/events/bel-electric-water-heater-summit/

1:00 – 1:10 **Welcome, introductions and opening remarks**

- Weatherization/Electrification Together – Project Overview and Update

1:10 – 1:30 **New BEL research on electric water heating costs and benefits**

- GDS Associates
- The Brattle Group

1:30 – 1:50 **Projects implemented in the field**

- La Plata Electric Association - LMI Heat Pump WH Demonstration Project
- Great River Energy – Thermal Storage and Grid-Interactive Water Heating

1:50 – 2:40 **Perspectives from technology providers**

- Armada Power
- Aquanta
- The Steffes Group
- AO Smith
- Rheem

2:40 – 3:00 **Discussion and questions**
