

WEATHERIZATION + ELECTRIFICATION IN ILLINOIS

In Illinois, the state agency in charge of administering the Home Energy Rebate Program is the Illinois Environmental Protection Agency (IEPA).

[Program website](#)

[Sign up for IEPA email updates](#)

Current Status in Illinois:

As of June 2024, IEPA has yet to submit its full application to the DOE for its Home Rebate programs. There are no public hearings or stakeholder sessions scheduled at this time.

Timeline:

Given that the state hasn't submitted its full application, BEL is unable to estimate a timeline for availability of rebates.

\$263.4 Million

allocated for consumer rebates and program administration in Illinois.

We are awaiting further clarification on:

- Requirements for contractor certification
- Process for validating income levels
- Requirements for data/audit verification
- Overlap with other Illinois state programs
